RELATIONSHIPS & SERVICES

What investment services and advice can you provide me?

We offer model portfolio strategies as well as customized investment advisory and financial planning services to retail investors. We offer advice on a full suite of securities described in Item 8 of our Form ADV Part 2A (“**Disclosure Brochure**”),

including equities, fixed income, mutual funds, ETFs, options, and similar investments. Our services are generally provided on a discretionary basis, which means that we have the power to buy and sell securities for your account without your prior consent. This authority is usually unlimited and remains in effect until you revoke it. We may provide non-discretionary investment advice, where we make investment recommendations to you and you decide whether to implement the recommendation.

We usually review portfolios at least annually. However, we do monitor accounts on a continuous basis and conduct ad hoc reviews

if you change your objectives or risk tolerance, or upon significant market and economic events, or if we change our investment strategy. We require a minimum account size of \$100,000, which can be waived, but may incur additional reporting fees. For further information about our services and advice please read Items 4, 7, and 8 of our Disclosure Brochure. Click [here](#) for a copy or call us at (480) 483.1510.

Questions to Ask Us?

Given my financial situation, should I choose an investment advisory service? Why or why not?

How will you choose investments to recommend to me?

What is your relevant experience, including your licenses, education, and other qualifications?

What do these qualifications mean?

FEES, COSTS, CONFLICTS & STANDARD OF CONDUCT

What fees will I pay?

We charge an annual fee on the assets we manage for you. We typically require fees to be computed and payable quarterly in advance, based on the valuation of assets under management on the last day of the prior quarterly period. Our quarterly fees are calculated as a percentage of the assets under our management, so our fees will rise and fall with the value of the assets we manage for you. While our fees may reduce the amount of your assets available for investment, we believe they are justified by our services and attention to your needs. Moreover, we believe our interests are aligned with yours in this type of fee structure. Nonetheless, we are economically incented to recommend that you place more assets in your account in order to increase the value of your portfolio, because as the value increases, so do our fees. We also have an economic incentive to place assets into proprietary portfolio models, which are described in Item 4 of our Disclosure Brochure.

Questions to Ask Us?

Help me understand how these fees and costs might affect my investments. If I give you \$10,000 to invest, how much will go to fees and costs, and how much will be invested for me?

We offer our Financial Planning services on either a retainer fee basis generally, a fixed fee basis, , or on an hourly rate basis. The fee for any subsequent work shall be agreed to prior to commencing the engagement. All of our fees are negotiable.

Other Fees and Costs: Your investment assets will be held with a qualified custodian. Custodians generally charge brokerage commissions and/or transaction fees for effecting certain securities transactions. In addition, relative to all mutual fund and exchange traded fund purchases, certain charges will be imposed at the fund level (e.g. management fees and other fund expenses). Wrap fee program and separately managed accounts may pay brokerage, custody, investment advisory and other fees to their financial adviser or financial firm, in addition to our advisory fee. You will pay fees and costs whether you make or lose money on your investments. Fees and costs will reduce any amount of money you make on your investments over time. Please make sure you understand what fees and costs you are paying. *More detailed information about our fees and other costs associated with investing, along with applicable conflicts can be found in Items 5, 10, and 14 of our Disclosure Brochure. What are your legal obligations to me when acting as my investment adviser? How else does your firm make money and what conflicts of interest do you have?

*When we act as your investment adviser, we have to act in your best interest and not put our interest ahead of yours. At the same time, the way we make money creates some conflicts with your interests. You should understand and ask us about these conflicts because they can affect the investment advice we provide you. Here is an example to help you understand what this means. BCJ generally recommends either TD Ameritrade Institutional, or Schwab Advisor Services to serve as custodian to our clients. These custodians provide us with certain products and services at no cost that benefit us but do not benefit our clients. Certain of these products and services assist us in managing and administering our clients' accounts and others help us develop our business. The receipt of such creates a conflict of interest as it gives us an incentive to have clients custody their assets with one of these custodians. *More detailed information about our conflicts of interest can be found in Items 10, 11, 12, and 14 of our Disclosure Brochure. Click [here](#) for a copy or call us at (480) 483.1510.**

Questions to Ask Us?

How might your conflicts of interest affect me, and how will you address them?

How do your financial professionals make money?

Our financial advisors are paid a percentage of the fees we collect from you. Certain financial professionals are licensed insurance agents appointed with various insurance agencies. These professionals receive commissions when clients implement recommendations to purchase insurance products. This creates a conflict of interest. *Additional information about the compensation received by BCJ professionals and any related conflicts of interest are outlined in each professional's Form ADV Part 2B, which can be obtained by calling us at (480) 483.1510.*
